

2010 PRODUCT LAUNCH

Around Burner

Around Burner is at the heart of the new models in the EcoSmart™ Fire Outdoor Range and is the first burner specifically created by The Fire Company for outdoor use.

Available as a standalone product, the Around Burner offers the ultimate flexibility due to its modular design – allowing you to create an open fire just about anywhere. It features baffles for fuel efficiency, three drafters for flame stability and four clip-on baffles which enable users to control the amount of heat being generated and the amount of fuel used.

The Around Burner uses a lid mechanism to extinguish the flame.

The Around Burner is the lowest priced EcoSmart Fireplace currently available.

Dimensions	D: 14.4" H: 6.2"
Availability	Stainless: Order Now. Deliver 2 nd Week October

Cyl

Cyl is a cylindrical shaped 'tea light'-inspired fireplace. Cyl is constructed from weather-resistant materials, including a round stainless steel base that encases a five litre stainless steel burner.

The cylindrical glass surround is made of crystal glass which embraces the flame and is elevated above the base by three stainless steel spigots.

The Cyl can be turned on and off as desired using the accompanying lid. Standing 24.6 inches high (626mm), the Cyl is a stylish addition to an alfresco party or event – at any time of the year

Dimensions	D: 16.5" H: 21"

2010 PRODUCT LAUNCH

Mini-T

Like its 'big brother' The Tower, the design of the striking **Mini T** is inspired by the 'Padella Romana' – a distinctive lighting feature used at the entrances of wealthy families during the Roman Empire.

A stunning addition to any outdoor space, the Mini T features a brushed stainless steel base and a solid plinth, made from four toughened glass panels, which encloses the central, elevated flame.

The glass surround not only enhances the drama of the fire, but also ensures safety. The Mini T, which stands 15.6 inches high (620mm), can be turned on and off as desired, using the accompanying lid, which extinguishes the flame once put into position. Mini T retails for \$1,990.

Dimensions	W: 17.3" D: 17.3" H: 24.5"
Availability	Order Now. Deliver 2 nd Week October

Lantern

Lantern is constructed from mild steel with a bronze patina and stands 31.2 inches high (792mm).

Each side is decorated with an abstract cut-out pattern so that when the Lantern is lit, the pattern is enhanced by the flame, creating a visually dramatic fireplace.

The Lantern Ships with Around Burner

The Lantern is available in bronze and retails for \$3,990.

Dimensions	W: 17.1" D: 17.8" H: 31.2"

2010 PRODUCT LAUNCH

Renovator Range 1200SS

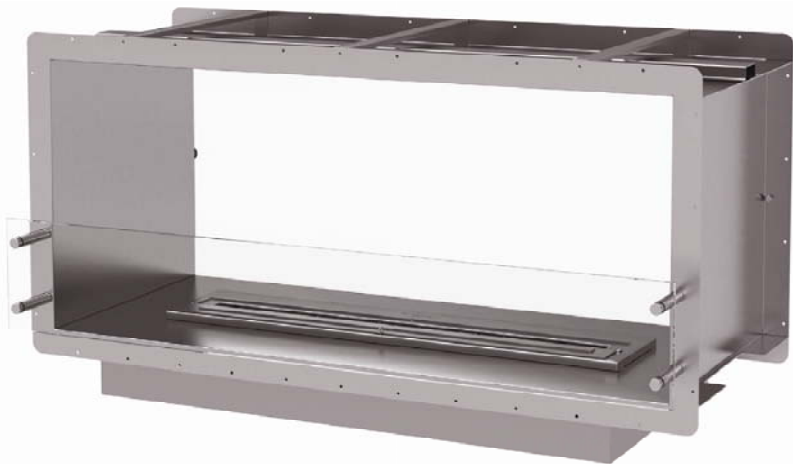

Firebox 1200SS offers utmost ease of installation. A rectangular-shaped stainless steel firebox, the 1200SS has been designed in response to demand for a firebox with a linear flame. This is why the firebox features a long, built-in stainless steel bench to accommodate the XL Burner.

The end result is a unique fireplace which can be used to create a stunning centerpiece for an extensive variety of tailored settings, both within residential and commercial premises.

A Wind Screen Static is included, which is affixed to the front of the firebox. As with each of the models within the Renovator Range, the zero clearance Firebox 1200SS is designed for ease of installation.

Dimensions	W: 51.2"	D: 14.8"	H: 26.1"
Availability	Order Now. Deliver 2 nd Week October		

Renovator Range 1200DB

The sleek long-line **Firebox 1200DB** was developed in response to the overwhelming demand for a firebox to house the ever-popular XL Burner.

It enables architects, designers, builders and home renovators to maximize their choice of interior design options. A rectangular-shaped firebox, the 1200DB has been designed with a double opening, enabling a 'see through' effect to enhance the feeling of space and ensure a distinctive design element.

The stainless steel, zero clearance firebox houses the XL Burner, which facilitate a captivating linear flame. The rear of the Firebox 1200DB features a tempered glass panel, which doesn't impact the integrity and transparency of the design.

Dimensions	W: 51.2"	D: 20.2"	H: 26.1"
